The Toilet Paper

June 2023

Hello dear readers,
with this "Toilet Paper" we would like to inform you about current topics in the Department of Computer Science. As usual, we are happy to hear your feedback.

Please send any comments and wishes directly to `oeffentlichkeit.fin@lists.uni-ulm.de`*.*

Receive The Toilet Paper via e-mail: `SUBSCRIBE klo.fin` *an* `sympa@lists.uni-ulm.de` *senden.*

More FIN infos via e-mail: `SUBSCRIBE info.fin` *an* `sympa@lists.uni-ulm.de` *senden.*

We are also active on Facebook, Twitter, Instagram, and Telegram.

More at `stuve.uni-ulm.de/fin/en`*.*

Competitive programming

We invite you to the **German Collegiate Programming Contest 2023!**
When: June 17, 2023, 11:00 AM to 16:00 PM
Where: Südpool
What is it all about?
Five hours of problem solving and programming with 2 friends; the team that solves the most problems wins! For each solved problem you'll get a balloon.
Please be there on time, at **10:30 AM** we will have a brief introduction.
After the Contest, the solutions to the problems will be presented while enjoying snacks and drinks.
Registration is not required, but it helps us with the planning. For more information and registration, please see the QR code.

Elections

The students elect their representatives in four different committees. These are the **Senate** and the **Fakultätsrat(FakRat)** on university level and the **Studierendenparlament(StuPa)** and the **Fachschaftenrat(FsR)** on the side of student self-administration.

The election for the StuPa and the FsR will take place on **20 June 2023** at the **Uni South (O25, learning area 7, next to the Mensa)** and on **21 June 2023 at the Uni West (Quartier 41, learning areas 5 and 6, next to the Cafeteria West)** from **09:00-16:00 hrs** each.

The Senate and the FakRat will be elected **online** this year.

More information about the elections is available on the Stuve website or at this link: `https://stuve.uni-ulm.de/en/news/elections`.

Excursion to Voith

Voith has invited the Computer Science Students to participate in an excursion to their headquarters in Heidenheim. Now the date for the visit is set. On **13.06.** you can get an insight into the daily work routine at Voith.
Interested students are welcome to write an email to `fin-intern@uni-ulm.de`.

SoNaFe

On **29.06.** it's that time again. The biggest university party ... not quite in southern Germany, but definitely of the year, will take place again. You can expect a beer garden, live music, food trucks, party - the full program.
More information, e.g. how to get tickets, will follow soon.

Good to know

In this section we would like to inform you about a current topic. At this year's conference for computer science departments (KIF) a draft law of the European Commission was discussed. It is about the mandatory monitoring of internet services for the prevention of sexual abuse of children. Critics of this draft see the postal secrecy and thus the data protection threatened. It is definitely worth reading up on this topic. The best place to start is the article from Politico.eu

Meme of the Month

Here we publish the best meme in each issue.
Anyone can **send in memes to:**
`oeffentlichkeit.fin@lists.uni-ulm.de`, preferably with "Meme of the Month" in the subject line. We're looking forward to your creative ideas!

We wish all those who have (successfully) survived the first exam period a nice lecture-free time!
